Extra stability during cycling

A pair of pedal shoes for foot fixation to enable reclined pedaling. These pedal shoes will replace the standard pedals of the ergometer. If you would like to order them as additional to the standard pedal, please use part number P917803 on your order.

Multifunctional

The ergometer can be used in various ergometry settings, enabling a multifunctional deployment.

Stability

Since athletes are getting more and more powerful and testing more extreme, the ergometer is designed for high workloads up to 2500 watt. Even the strongest and most powerful athletes will experience a stable and comfortable basis.

**7
watt**

Extreme low start up load

The extreme low start-up load of 7 watts and the adjustability in small steps of 1 watt make this ergometer perfectly suitable for many different applications. The standard control unit shows multiple ergometry parameters and you can determine your specific default setting and start-up menu.
